About us

Teamafco Pvt Ltd is a leading tea manufacturer in Assam. Established on September 29, 1983, we were the first bought-leaf factory in the region. Our annual production capacity stands at 2.6 Million kgs, and we have set industry standards with our innovative approach to tea cultivation in Dibrugarh.

Our group specializes in two varieties: traditional Orthodox (leaf) tea and the modern process of CTC (granular) tea.

In recent years, we have acquired well-reputed gardens such as Gelakey, Tamulbari and Tengpani, and commissioned a small bought leaf factory called Tejasi to enhance our product offerings.

Vision

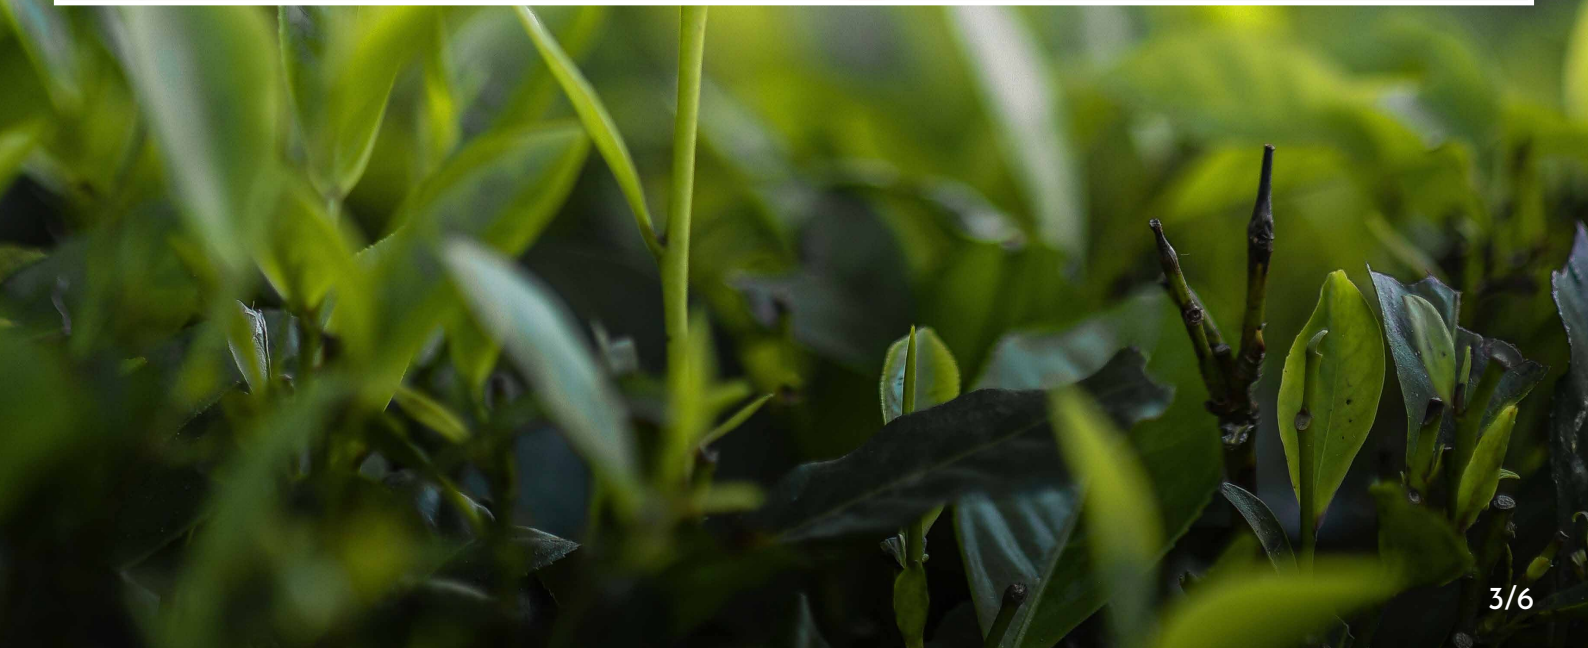

Our vision is to provide high-quality tea that offers an unparalleled drinking experience. Through constant innovation, we have built lasting relationships with our existing customers and have expanded our reach to new consumers worldwide.

Our Certifications

Teamafco and its group gardens are fully trustee-certified gardens.

Our Packaging

Teas are packed into tea liner bags made out of multi-layer flexible packaging films before being stuffed in PP/jute bags/half-size paper sacks (2ply of 70 GSM SEK 1 + Inner ply laminate of kp + ldpe + mtl al-foil laminate 100-104). These specially made liner bags have been made from EVOH / Nylon high-barrier films and provide the perfect barrier against Oxygen and moisture, thereby protecting the contents and ensuring a longer shelf life even under diverse storage temperatures and conditions. These special liners have excellent retention power which helps in preserving the taste, aroma, flavour, colour, texture and integrity of our teas.

Our Products

Our products are widely recognized for their aromatic and pungent liquor black teas, which burst with rich, strong flavors and turn golden Kesari when milk is added. Our tea is more than just a beverage; it contributes to people's well-being.

We offer CTC teas and Orthodox tea, which are aimed at specialized consumer preferences and niche markets. These are available in bulk and packaged form according to the buyer needs. Quality of our tea is ensured through our fully equipped tea testing room and quality control unit.
